PROFILE

About Me

As a **software engineer** with a passion for problem-solving and team collaboration, I am seeking a role as a front-end developer(React.js). With expertise in various programming languages and experience with Agile methodology, I am confident in my ability to create innovative solutions for complex problems. Outside of work, my hobbies of exploring new places, reading, photography, and sports fuel my creativity and determination to succeed in any task.

WORK EXPERIENCE

[01/2024 – Current]

Front-end Developer

Soft Tag

As a **React developer**, I built the dashboard application for school management operations, providing administrators with a centralized platform to oversee critical functions. I also designed and implemented the website for a smart bracelet system used to track student attendance at schools and SOS Status for Children., I built a service-based website for a client in Saudi Arabia .
